~~Fibro~~ Fibrinogen → the last but not ~~las~~ leasst 3rd group of plasma proteins →

like albumin & Alpha & beta globulins → ~~fibring~~ fibrinogen is produced by the liver

essential for blood clotting

Fibrinogen accounts for about 7% of the total plasma protein volume in clinical levels of 0.2 - 0.45 g/dL blood

Other Plasma Studies

↳ contain various electrolytes → such as Na^+ K^+ Ca^{2+}, dissolved gasses O_2, CO_2 NO, Organic nutrients → vitamins → lipids - glucose, amino acids →

All non-protein solutes - combined to approx 1% of the total ~~blood~~ Volume of blood plasma
