AP 18.2 -13

10.12.2026

from bone-marrow to lymphatic tissues →
this includes → the lymph nodes
& the spleen
& thymus

where their production & diff continues

B cells → mature in bone marrow

T-cells → mature in the ~~Hymo~~ Thymus

these are
→ Lymphoid Stem cells

· ~~Myt~~ Myeloid Stem cells

→ gives rise to all other formed elements including RBC, megakaryocytes that produce platelets
& myeloblasts ? lineage that
gives rise to monocytes & three forms
of granular leukocytes :

↓
neutrophils
eosinophils
basophils
